

Chapter 02: The Deduction for Qualified Business Income for Pass-Through Entities

True / False

1. Tomas owns a sole proprietorship, and Lucy is the sole shareholder of a C corporation. In the current year both businesses make a net profit of \$60,000. Neither business distributes any funds to the owners in the year. For the current year, Tomas must report \$60,000 of income on his individual tax return, but Lucy is not required to report any income from the corporation on her individual tax return.
 - a. True
 - b. False

ANSWER: True

RATIONALE: Proprietorship profits flow through to the owner and are reported on the owner's individual income tax return. It does not matter how much of the profit is withdrawn from the proprietorship. Thus, Tomas must report the net profit of \$60,000 on his Form 1040 (Schedule C). Shareholders are required to report income from a C corporation only to the extent of dividends received. Consequently, Lucy has no income to report from the corporation for the current year. Tomas is likely eligible for a qualified business income deduction.

Chapter 02: The Deduction for Qualified Business Income for Pass-Through Entities

2. Carol and Candace are equal partners in Peach Partnership. In the current year, Peach had a net profit of \$75,000 (\$250,000 gross income – \$175,000 operating expenses) and distributed \$25,000 to each partner. Peach must pay tax on \$75,000 of income.
- True
 - False

ANSWER: False

RATIONALE: A partnership is not a taxpaying entity. Its profit (loss) and separate items flow through to the partners. The partnership's Form 1065 reports net profit of \$75,000. Carol and Candace both receive a Schedule K-1 reporting net profit of \$37,500. Each partner reports net profit of \$37,500 on her own return (Form 1040). Each is likely eligible for a deduction for qualified business income on the income from the partnership.

3. Rajib is the sole shareholder of Robin Corporation, a calendar year S corporation. In the current year, Robin earned net profit of \$350,000 (\$520,000 gross income – \$170,000 operating expenses) and distributed \$80,000 to Rajib. Rajib must report Robin Corporation profit of \$350,000 on his Federal income tax return.
- True
 - False

ANSWER: True

RATIONALE: Similar to partnerships, the net profit or loss of an S corporation flows through to the shareholders to be reported on their individual tax returns. Robin's net income of \$350,000 is allocated entirely to Rajib, as the sole shareholder, and Rajib reports the \$350,000 of income on his Federal income tax return, regardless of how much of the income was withdrawn from the S corporation.

Chapter 02: The Deduction for Qualified Business Income for Pass-Through Entities

4. Donald owns a 45% interest in a partnership that earned \$130,000 in the current year. He also owns 45% of the stock in a C corporation that earned \$130,000 during the year. Donald received \$20,000 in distributions from each of the two entities during the year. With respect to this information, Donald must report \$78,500 of income on his individual income tax return for the year.
- a. True
 - b. False

ANSWER: True

RATIONALE: On his individual income tax return for the year, Donald must report his \$58,500 ($\$130,000 \times 45\%$) share of the partnership income plus the \$20,000 of dividends he received from the C corporation, or \$78,500 of total income. Partnership income is taxed to a partner in the year earned, and distributions do not affect a partner's share of income. A C corporation's income is taxed to a shareholder only when distributed as dividends and to the extent thereof. Donald should be eligible for a deduction for qualified business income on his partnership business income.

Chapter 02: The Deduction for Qualified Business Income for Pass-Through Entities

5. Quail Corporation is a C corporation with net income of \$125,000 during the current year. If Quail paid dividends of \$25,000 to its shareholders, the corporation must pay tax on \$100,000 of net income. Shareholders must report the \$25,000 of dividends as income.
- a. True
 - b. False

ANSWER: False

RATIONALE: Quail Corporation must pay tax on the \$125,000 of corporate net income. Dividends paid are not deductible by the corporation. Shareholders must pay tax on the \$25,000 of dividends received from the corporation. This is commonly referred to as double taxation.

Chapter 02: The Deduction for Qualified Business Income for Pass-Through Entities

7. Don, the sole shareholder of Pastel Corporation (a C corporation), has the corporation pay him a salary of \$600,000 in the current year. The Tax Court has held that \$200,000 represents unreasonable compensation. Don must report a salary of \$400,000 and a dividend of \$200,000 on his individual tax return.
- a. True
 - b. False

ANSWER: True

RATIONALE: To the extent a salary paid to a shareholder/employee is considered reasonable, the corporation is allowed a salary deduction, which reduces corporate taxable income. To the extent a salary payment is not considered reasonable, the payment is treated as a dividend, which does not reduce corporate taxable income. The shareholder/employee is taxed on both salary (\$400,000) and dividends (\$200,000). (Pastel's taxable income increases by \$200,000, the amount of the unreasonable compensation paid to Don.)

12. Employment taxes apply to all entity forms of operating a business. As a result, employment taxes are a neutral factor in selecting the most tax effective form of operating a business.

- a. True
- b. False

ANSWER: False

RATIONALE: Employment taxes applicable to payments to owners of businesses are not neutral in the selection of a business form. The self-employment tax applies to the net earnings of a proprietorship and, often, to partnership allocations of income to a partner. Individuals can deduct one-half of the self-employment tax paid. Conversely, payroll taxes (employer and employee) apply to wages paid to a shareholder-employee of a corporation (regular or S), and the corporation can deduct the employer share of payroll taxes paid. Any analysis of the most tax effective form of operating a business must consider these differences in the treatment of employment taxes.

Chapter 02: The Deduction for Qualified Business Income for Pass-Through Entities

15. Katherine, the sole shareholder of Penguin Corporation, has the corporation pay her a salary of \$300,000 in the current year. The Tax Court has held that \$90,000 represents unreasonable compensation. Katherine has avoided double taxation only to the extent of \$210,000 (the portion of the salary that is considered reasonable compensation).
- True
 - False

ANSWER: True

RATIONALE: To the extent a salary paid to a shareholder/employee is considered reasonable, the corporation is allowed a salary deduction, which reduces corporate taxable income. To the extent a salary payment is not considered reasonable, the payment is treated as a dividend, which does not reduce corporate taxable income. Katherine is taxed on both salary and dividends. Therefore, double taxation has occurred on \$90,000.

Chapter 02: The Deduction for Qualified Business Income for Pass-Through Entities

Multiple Choice

33. Luis is the sole shareholder of a regular C corporation, and Eduardo owns a proprietorship. In the current year, both businesses make a profit of \$80,000 and each owner withdraws \$50,000 from his business. With respect to this information, which of the following statements is incorrect?
- a. Eduardo must report \$80,000 of income on his return.
 - b. Luis must report \$80,000 of income on his return.
 - c. Eduardo's proprietorship is not required to pay income tax on \$80,000.
 - d. Luis's corporation must pay income tax on \$80,000.
 - e. None of the above.

ANSWER: b

RATIONALE: For the current year, Luis must report dividend income of \$50,000, and Luis's corporation must pay income tax on the \$80,000 of profit (choice d.). Eduardo must report on his individual return the \$80,000 profit from his business (choice a.), but the proprietorship is not a taxable entity (choice c.). Luis is not required to report income from the corporation until he receives a dividend.

Chapter 02: The Deduction for Qualified Business Income for Pass-Through Entities

34. Which of the following statements is *incorrect* about LLCs and the check-the-box Regulations?
- a. If a limited liability company with more than one owner does not make an election, the entity is taxed as a corporation.
 - b. All 50 states have passed laws that allow LLCs.
 - c. An entity with more than one owner and formed as a corporation cannot elect to be taxed as a partnership.
 - d. If a limited liability company with one owner does not make an election, the entity is taxed as a sole proprietorship.
 - e. A limited liability company with one owner can elect to be taxed as a corporation.

ANSWER:

a

RATIONALE:

If a limited liability company with more than one owner does not make an election, the entity is taxed as a partnership. The other statements are correct.

Chapter 02: The Deduction for Qualified Business Income for Pass-Through Entities

36. An individual in a specified service business, such as accounting, with taxable income over the threshold amounts (\$207,500, or \$415,000 if married filing jointly), will not lose the QBI deduction on such income if:
- Taxable income exceeds the thresholds due to income of a spouse.
 - Taxable income did not exceed the thresholds in the prior three years.
 - Taxable income exceeds the thresholds because of net capital gain income.
 - None of the above.

ANSWER: d

RATIONALE: It does not matter why the individual's taxable income exceeds the thresholds for qualifying for the QBI deduction for income from specified service business.

POINTS: 1

Chapter 02: The Deduction for Qualified Business Income for Pass-Through Entities

37. Sam and Betty, each single, each generate sole proprietor income of \$240,000. Sam's income is generated from a wholesale business while Betty's is earned from her law practice. Neither has any employees or qualified assets. Both claim the standard deduction and have other income equal to the standard deduction amount.
- a. Both Sam and Betty will have a QBI deduction of \$48,000.
 - b. Sam can obtain a QBI deduction, but Betty cannot because of the taxable income level and law practice is a specified service business.
 - c. Neither Sam nor Betty will generate a QBI deduction due to their taxable income levels.
 - d. None of the above.

ANSWER:

c

RATIONALE:

Sam will not generate a QBI deduction because application of the wage/capital investment limitations results in zero QBI. Betty does not generate a QBI deduction because her income exceeds \$157,500 and she also generates zero QBI deduction under the wage/capital investment limit. In addition, with taxable income above \$207,500, her specified service business generates no QBI deduction.

Chapter 02: The Deduction for Qualified Business Income for Pass-Through Entities

38. Tammy has \$200,000 of QBI from her neighborhood clothing store (a sole proprietorship). Tammy's proprietorship paid \$30,000 in W-2 wages and has \$20,000 of qualified property. Tammy's spouse earned \$50,000 of wages as an employee, they earned \$20,000 of interest income during the year, and will be filing jointly. What is their QBI deduction for 2018?
- a. \$-0-.
 - b. \$40,000.
 - c. \$50,000.
 - d. \$54,000.
 - e. None of the above.

ANSWER:

b

RATIONALE:

Tammy and her spouse have taxable income before the QBI deduction of \$270,000 (this is also their modified taxable income). As their taxable income before the QBI deduction is less than the threshold amount for married taxpayers filing a joint return, the W-2 Wages/Capital Investment limit does not apply. Their QBI deduction is \$40,000, the lesser of:

1. 20% of qualified business income ($\$200,000 \times 20\%$), or \$40,000
2. 20% of modified taxable income ($\$270,000 \times 20\%$) \$54,000

Chapter 02: The Deduction for Qualified Business Income for Pass-Through Entities

39. Jenna Parker owns and manages her single member LLC which provides a wide variety of financial services to her clients. She is married and will file a joint tax return with her spouse, Paul. Her LLC reports \$300,000 of net income, W-2 wages of \$120,000, and assets with an unadjusted basis of \$75,000. Their taxable income before the QBI deduction is \$285,000 (this is also their modified taxable income). What is their QBI deduction for 2018?
- \$-0-
 - \$57,000.
 - \$60,000.
 - \$70,000.
 - None of the above.

ANSWER:

b

RATIONALE:

Even though this is a “specified services” business, Jenna and Paul’s taxable income before the QBI deduction is below the \$315,000 threshold. As a result, their QBI deduction is \$57,000, computed as follows:

- 20% of qualified business income ($\$300,000 \times 20\%$), or \$60,000
- 20% of modified taxable income ($\$285,000 \times 20\%$) \$57,000

40. Ellie (a single taxpayer) is the owner of ABC, LLC. The LLC (a sole proprietorship) reports QBI of \$900,000 and is *not* a “specified services” business. ABC paid total W-2 wages of \$300,000, and the total unadjusted basis of property held by the LLC is \$30,000. Ellie’s taxable income before the QBI deduction is \$740,000 (this is also her modified taxable income). What is her QBI deduction for 2018?
- \$75,750.
 - \$148,000.
 - \$150,000.
 - \$180,000.
 - None of the above.

ANSWER:

b

RATIONALE:

As Ellie’s taxable income before the QBI deduction exceeds the \$207,500 threshold, the W-2 Wages/Capital Investment Limit must be considered.

Ellie’s QBI deduction is \$148,000, computed as follows:

Chapter 02: The Deduction for Qualified Business Income for Pass-Through Entities

1. 20% of qualified business income ($\$900,000 \times 20\%$)
2. But no more than the *greater of*:
 - 50% of W-2 wages ($\$300,000 \times 50\%$), or
 - 25% of W-2 wages ($\$300,000 \times 25\%$) plus \$75,000
 - 2.5% of the unadjusted basis of qualified property ($\$30,000 \times$ 75% 2.5%)
- And, no more than:
3. 20% of modified taxable income ($\$740,000 \times 20\%$)

Chapter 02: The Deduction for Qualified Business Income for Pass-Through Entities

41. Danielle is a partner in, and sales manager for, DG Partners, a domestic business that is *not* a specified service trade or business. During the tax year, she receives guaranteed payments of \$250,000 from DG Partners for her services to the partnership as its sales manager. In addition, her distributive share of DG Partners' ordinary income (its only item of income or loss) was \$175,000. What is Danielle's qualified business income?
- a. \$-0-.
 - b. \$175,000.
 - c. \$250,000.
 - d. \$425,000.
 - e. None of the above.

ANSWER: b

RATIONALE: Danielle's qualified business income from DG Partners is \$175,000. Her guaranteed payments do not qualify as QBI.

Chapter 02: The Deduction for Qualified Business Income for Pass-Through Entities

42. Aaron is the sole shareholder and CEO of ABC, Inc., an S corporation that is a qualified trade or business. During the current year, ABC has net income of \$325,000 after deducting Aaron's \$100,000 salary. In addition to his compensation, ABC pays Aaron dividends of \$250,000. What is Aaron's qualified business income?
- a. \$-0-.
 - b. \$100,000.
 - c. \$250,000.
 - d. \$325,000.
 - e. None of the above.

ANSWER:

d

RATIONALE:

Aaron's qualified business income from ABC, Inc. is \$325,000 (the net income reported to Aaron as ordinary income).

Chapter 02: The Deduction for Qualified Business Income for Pass-Through Entities

43. Alicia is the sole shareholder and CEO of ABC, Inc., an S corporation that is a qualified trade or business. During the current year, ABC has net income of \$325,000 after deducting Alicia's \$100,000 salary. In addition to her compensation, ABC pays Alicia dividends of \$250,000. After reviewing comparable companies, you determine that reasonable compensation for someone with Alicia's experience and responsibilities is \$200,000. What is Alicia's qualified business income?
- a. \$-0-.
 - b. \$200,000.
 - c. \$225,000.
 - d. \$325,000.
 - e. None of the above.

ANSWER:

c

RATIONALE:

Alicia's qualified business income from ABC, Inc. is \$225,000; \$325,000 net income reported to Alicia as ordinary income less \$100,000 of the "dividends" which would be reclassified as compensation under § 199A. Reasonable compensation is not QBI.

Chapter 02: The Deduction for Qualified Business Income for Pass-Through Entities

44. Taylor, a single taxpayer, has taxable income before the QBI deduction of \$187,500. Taylor, a CPA, operates an accounting practice as a single member LLC (which he reports as a sole proprietorship). During 2018, his proprietorship reports net income of \$150,000 and W-2 wages of \$125,000 and \$10,000 of qualified property. What is Taylor's qualified business income deduction?
- a. \$-0-.
 - b. \$12,000.
 - c. \$30,000.
 - d. \$31,500.
 - e. None of the above.

ANSWER:

c

RATIONALE:

Taylor has a "specified services" business. As his taxable income before the QBI deduction is more than \$157,500 (but less than \$207,500), he will receive a partial QBI deduction. Given the W-2 wages he reports, his QBI deduction will not be limited by the W-2 wages/capital investment limitation (50% of his W-2 wages is \$62,500; this amount will exceed the other QBI deduction computations). Taylor's QBI deduction is \$12,000, computed as follows:

(1) Determine Applicable Percentage:

$$\begin{aligned} \text{Applicable percentage} &= 100\% - \frac{\$30,000 (\$187,500 - \$157,500)}{\$50,000} \\ &= 40\% \end{aligned}$$

(2) Determine QBI deduction:

20% of qualified business income (\$150,000 x 20%)	\$30,000
x Applicable percentage	<u>x 40%</u>
	<u>\$12,000</u>

POINTS:

Chapter 02: The Deduction for Qualified Business Income for Pass-Through Entities

45. Jason and Paula are married. They file a joint return for 2018 on which they report taxable income before the QBI deduction of \$200,000. Jason operates a sole proprietorship and Paula is a partner in the PQRS Partnership. Both are a qualified trade or business and neither is a specified services business. Jason's sole proprietorship reports \$150,000 of net income, W-2 wages of \$45,000, and has qualified property of \$50,000. Paula's partnership reports a loss for the year, and her allocable share of the loss is \$40,000. The partnership reports no W-2 wages and Paula's share of the partnership's qualified property is \$20,000. What is their qualified business income deduction for the year?
- a. \$-0-.
 - b. \$11,750.
 - c. \$22,000.
 - d. \$30,000.
 - e. None of the above.

ANSWER:

c

RATIONALE:

Jason and Paula's taxable income before the QBI deduction is \$200,000. As a result, the W-2 wages/capital investment limitation does *not* apply to them. Jason's QBI amount is \$30,000 ($\$150,000 \times 20\%$). Paula's QBI amount is \$(8,000) [$\$(40,000) \times 20\%$]. Their combined qualified business income amount is \$22,000 [$\$30,000 + \$(8,000)$]. As this amount is less than the overall limitation based on modified taxable income ($\$200,000 \times 20\% = \$40,000$), their QBI deduction is \$22,000.

46. Tanuja Singh is a CPA and operates her own accounting firm (Singh CPA, LLC). As a single member LLC, Tanuja reports her accounting firm operations as a sole proprietor. Tanuja has QBI from her accounting firm of \$540,000, reports W-2 wages of \$156,000, and the unadjusted basis of property used in the LLC is \$425,000. Tanuja is married and will file a joint tax return with her spouse. Their taxable income before the QBI deduction is \$475,000 and their modified taxable income is \$448,000. What is Tanuja's QBI deduction for 2018.
- a. \$-0-.
 - b. \$49,625.
 - c. \$78,000.
 - d. \$89,600.
 - e. None of the above.

ANSWER:

a

RATIONALE:

Tanuja is not entitled to a QBI deduction in 2018. Her accounting firm is a "specified services" business and she and her spouse's taxable income before the QBI deduction (\$475,000) exceeds the \$415,000 threshold for 2018.

Subjective Short Answer

50. Rebecca and Brad are married and will file jointly. Rebecca earns \$300,000 from her single member LLC (a law firm). She reports her business as a sole proprietorship. Wages paid by the law firm amount to \$40,000; the law firm has no significant property. Brad is employed as a tax manager by a local CPA firm. Their modified taxable income is \$375,000 (this is also their taxable income before the deduction for qualified business income). Determine their QBI deduction for 2018.

ANSWER: Normally, Rebecca and Brad would be entitled to a QBI deduction of \$60,000 (\$300,000 x 20%). But since their taxable income exceeds the threshold for married taxpayers (\$315,000), and Rebecca's QBI is from a "specified services" business (a law firm), their QBI deduction is limited to \$14,400, computed as follows:

- (1) Determine Applicable Percentage:

$$\text{Applicable percentage} = 100\% - \frac{\$60,000 (\$375,000 - \$315,000)}{\$100,000} = 40\%$$

- (2) Determine QBI deduction:

1. 20% of qualified business income (\$300,000 x 20%)	\$60,000
x Applicable percentage	<u>x 40%</u>
	<u>\$24,000</u>

2. But no more than the *greater of*:

Chapter 02: The Deduction for Qualified Business Income for Pass-Through Entities

- 50% of W-2 wages (\$40,000 x 50% x 40%), or \$ 8,000
- 25% of W-2 wages (\$40,000 x 25% x 40%) plus \$4,000
- 2.5% of the unadjusted basis of qualified property — \$ 4,000
(\$-0- x 2.5% x 40%) -0-

As Rebecca and Brad's modified taxable income exceeds \$315,000, but is less than \$415,000 and *the W-2 Wages/Capital portion of the computation is the limiting factor*, the general 20% QBI amount is used, but reduced as follows:

- (1) Determine difference between the general 20% QBI deduction amount and the W-2 Wages/Capital amount.
- | | |
|--|-----------------|
| General 20% QBI deduction amount | \$ 24,000 |
| Less: The W-2 Wages/Capital Investment limit | <u>(8,000)</u> |
| Excess | <u>\$16,000</u> |

- (2) Determine the Reduction Ratio:

$$\text{Reduction Ratio} = \frac{\$60,000 (\$375,000 - \$315,000)}{\$100,000} = 60\%$$

- (3) Determine the Reduction in the W-2 Wages/Capital Investment Limit:
- Excess (\$16,000) x Reduction Ratio (60%) = \$9,600

- (4) Determine Final QBI Amount:

General 20% QBI deduction amount	\$24,000
Less: Reduction in the W-2 Wages/Capital limit	<u>(9,600)</u>
Final QBI Amount	<u>\$14,400</u>

POINTS: 1

Chapter 02: The Deduction for Qualified Business Income for Pass-Through Entities

51. Ashley (a single taxpayer) is the owner of ABC, LLC. The LLC (a sole proprietorship) reports QBI of \$900,000 and is not a “specified services” business. ABC paid total W-2 wages of \$300,000, and the total unadjusted basis of property held by ABC is \$30,000. Ashley’s taxable income before the QBI deduction is \$740,000 (this is also her modified taxable income). What is Ashley’s QBI deduction for 2018?

ANSWER: As Ashley’s taxable income before the QBI deduction exceeds the \$207,500 threshold, the W-2 Wages/Capital Investment Limit must be considered. Ashley’s QBI deduction is \$148,000, computed as follows:

- | | | |
|----|--|-----------------------------|
| 1. | 20% of qualified business income (\$900,000 x 20%) | <u>\$180,000</u> |

52. Susan, a single taxpayer, owns and operates a bakery (as a sole proprietorship). The business is *not* a specified services business. In 2018, the business pays \$60,000 in W-2 wages, has \$150,000 of qualified property, and

Chapter 02: The Deduction for Qualified Business Income for Pass-Through Entities

\$200,000 in net income (all of which is qualified business income). Susan also has a part-time job earning wages of \$11,000, receives \$3,000 of interest income, and will take the standard deduction. What is Susan's qualified business income deduction?

ANSWER:

Susan's taxable income before the QBI deduction is \$202,000 (her proprietorship net income of \$200,000 plus her wages of \$11,000 and her \$3,000 of interest income less her \$12,000 standard deduction).

As Susan's taxable income before the QBI deduction exceeds \$157,500, the W-2 Wages/Capital Investment limit must be considered:

1. 20% of qualified business income ($\$200,000 \times 20\%$) \$ 40,000
2. But no more than the *greater of*:
 - 50% of W-2 wages ($\$60,000 \times 50\%$), or \$ 30,000
 - 25% of W-2 wages ($\$60,000 \times 25\%$) plus \$ 15,000
 - 2.5% of the unadjusted basis of qualified property 3,750 \$ 18,750
 - ($\$150,000 \times 2.5\%$)

And, no more than:

3. 20% of modified taxable income ($\$202,000 \times 20\%$) \$ 40,400

So, initially, Susan's QBI deduction is limited to \$30,000. However, as Susan's taxable income before the QBI deduction exceeds \$157,500, but is less than \$207,500 and ***the W-2 Wages/Capital Investment portion of the computation is the limiting factor***, the general 20% QBI amount is used, but reduced as follows:

Determine difference between the general 20% QBI deduction amount and the

- (1) W-2 Wages/Capital amount.

General 20% QBI deduction amount	\$40,000
Less: The W-2 Wages/Capital limit	(<u>30,000</u>)
Excess	<u>\$10,000</u>

- (2) Determine the Reduction Ratio:

Chapter 02: The Deduction for Qualified Business Income for Pass-Through Entities

$$\text{Reduction ratio} = \frac{44,500 (\$202,000 - \$157,500)}{\$50,000} = 89\%$$

(3) Determine the Reduction in the W-2 Wages/Capital Limit:

$$\text{Excess } (\$10,000) \times \text{Reduction ratio } (89\%) = \$ 8,900$$

(4) Determine Final QBI Amount:

General 20% QBI deduction amount	\$40,000
Less: Reduction in the W-2 Wages/Capital limit	<u>(8,900)</u>
Final QBI Amount	<u>\$31,100</u>

Chapter 02: The Deduction for Qualified Business Income for Pass-Through Entities

53. Ben owns and operates as a sole proprietorship, a machine repair shop that generates a profit of about \$150,000 annually. The business pays wages of about \$50,000 annually. The building and most of the equipment is leased so there is no qualified property. Ben files as single and claims the standard deduction. He has a large unrealized gain in bitcoin that he acquired in 2014 and is wondering when he should sell it and whether he should sell it all in one year or over a few years. Advise Ben as to how the sale of the bitcoin and its resulting capital gain can affect his QBI deduction.

ANSWER: The capital gain will increase Ben's taxable income to where it could exceed \$157,500. At that point, his QBI deduction will be limited to 50% of the W-2 wages paid (\$25,000). If taxable income remains at \$157,500 or less, his QBI deduction will be 20% of his income from the repair business (\$30,000). Ben might want to sell all of the bitcoin in one year rather than over several years if doing so prevents his taxable income from exceeding \$157,500 and thereby imposing a limit on his QBI deduction.

55. Dawn is the sole shareholder of Thrush Corporation, a C corporation. In the current year, Thrush earned \$350,000 and distributed \$75,000 to Dawn. Kirk is the sole shareholder of Swallow Corporation, an S corporation. In the current year, Swallow earned \$350,000 and distributed \$75,000 to Kirk. Contrast the tax treatment of Thrush Corporation and Dawn with the tax treatment of Swallow Corporation and Kirk.

ANSWER: A C corporation is a separate taxable entity; thus, Thrush Corporation is taxed on the \$350,000 of earnings. Income of a C corporation has no effect on the shareholders until such time a dividend is paid. When dividends are paid, shareholders must report dividend income on their tax returns. Thus, Dawn is taxed on \$75,000 of dividends and the 0%/15%/20% preferential tax rate applies with respect to the dividends.

Generally, an S is not subject to an entity level Federal income tax. Instead, the corporation's income, gains, deductions, and losses are passed through to and reported by the shareholders on their tax returns. Thus, Swallow reports the \$350,000 of earnings on its tax return (Form 1120S), but pays no income tax. Kirk is taxed on the \$350,000 of earnings from Swallow on his individual income tax return (Form 1040). Distributions from S corporations are not taxable to the shareholder (to the extent of stock basis). Thus, Kirk is not taxed on the \$75,000 distribution from Swallow.

Chapter 02: The Deduction for Qualified Business Income for Pass-Through Entities

56. What is a limited liability company? What favorable nontax and tax attributes does the LLC entity form offer taxpayers?

ANSWER: Similar to the corporate entity form, a limited liability company is an entity created under the laws of a specific state (or the District of the Columbia) and, pursuant to such laws, an LLC has the corporate feature of limited liability. This is the primary nontax characteristic that makes LLC status attractive. Other nontax attributes that are available with the LLC entity form include centralized management, continuity of life, and free transferability of ownership interests. Which of these nontax attributes are allowed will be dependent on the laws of the state of LLC organization. The principal tax advantage of the LLC entity form is the ability to avoid double taxation of the entity's profits. Most LLCs will be taxed as either partnerships (two or more owner LLCs) or sole proprietorships (one owner LLCs), although the check-the-box Regulations do provide the opportunity to have an LLC taxed as a corporation (including an S corporation).

Chapter 02: The Deduction for Qualified Business Income for Pass-Through Entities

57. The qualified business income deduction is severely limited for “specified services” businesses. What is a “specified services” trade or business?

ANSWER: A specified service trade or business includes those involving:

The performance of services in certain fields, including health, law, accounting, actuarial science, performing arts, consulting, athletics, financial services, and brokerage services;

Services consisting of investing and investment management, trading or dealing in securities, partnership interests, or commodities; and

Any trades or business where the business’ principal asset is the reputation of one or more of its employees or owners.

Architects and engineers are specifically excluded from this definition.

Chapter 02: The Deduction for Qualified Business Income for Pass-Through Entities

58. Describe the limitations on the qualified business income deduction that apply to high income taxpayers.

ANSWER: The basic application of § 199A becomes considerably more complex once a taxpayer reaches certain taxable income thresholds. These taxable income thresholds – determined without regard to the QBI deduction – are \$315,000 for married taxpayers filing jointly and \$157,500 for all other taxpayers. These amounts will be indexed for inflation after 2018. Once these thresholds are reached, § 199A imposes two *independent* limitations:

First, § 199A imposes a cap on the QBI deduction, determined by reference to a percentage of the W-2 wages paid by the business (i.e., wages paid to its

1. employees), or by references to a smaller percentage of W-2 wages paid and a percentage of the cost of its depreciable property used to produce QBI.
2. Second, the QBI deduction generally is not available for income earned from certain “specified service” businesses.

Chapter 02: The Deduction for Qualified Business Income for Pass-Through Entities

59. How does property used in a qualified trade or business factor into the QBI deduction calculation? What types of property are considered for the QBI deduction?

ANSWER: Qualified property is used to determine one of the limitations to the QBI deduction. Specifically, 2.5 percent of qualified property is added to 25 percent of W-2 wages to determine this limitation.

Qualified property includes depreciable tangible property – real or personal – that is used by the QTBS during the year and whose “depreciable period” has not ended before the end of the taxable year. As a result, land and intangible assets are not qualified property. Given the broad-based changes to MACRS – allowing taxpayers to expense (via § 179 and/or bonus depreciation) property other than real estate – the “depreciable period” for “qualified property” under § 199A is a minimum of 10 years.

60. What are some of the issues remaining unresolved with the QBI deduction?

ANSWER: There are several areas that require additional guidance from the Treasury Department, including:

- What businesses are considered “specified service trades or businesses”? Is a real estate agent considered to be in a brokerage business (or must the individual have a broker license)? When is the reputation or skill of one or more employees or owners considered a principal asset of the business? Is a restaurant with a “celebrity chef” considered such a business?
- Many businesses outsource various functions (like human resources) to professional employer organizations (PEO). How is the wage limit applied if a business uses a PEO to manage its workforce?
- Are capital gains and losses from the disposition of business assets included in the term qualified business income?

Chapter 02: The Deduction for Qualified Business Income for Pass-Through Entities

- When can an individual's trades or businesses be separated or combined? For example, if a veterinarian also sells pet food and supplies and provides boarding services, is this one business or several? If several, how many? If the businesses can be separated, will the veterinarian obtain a QBI deduction even if taxable income exceeds the limits for obtaining a deduction for the "specified services" business?
- If an individual has businesses in separate legal entities (e.g., rental real estate owned in different partnerships), is each a separate business or must they be combined?
- When is rental real estate considered a qualified trade or business?
- How are losses from one business netted against income from other businesses?
